

## Lesson plan

### Secondary Level

This lesson plan will be more of a class plan for a year. It will lay out the books that the students will be required to read and have deadlines for all of them. Using Task.fm a list will be sent to the students comprised of the books they must read along with a book of their choice that must be approved by the teacher first. During the reading of the books I will send more lists with questions over which book we are reading they will need to answer that will help them with the main points of the book.
