

## Study Group

<b>Students</b>	All students will be in post secondary education
<b>Overview</b>	After this lesson, students will be able to successfully use 6grounds as a study group application
<b>Objective</b>	To teach students how to create a study group using 6grounds
<b>Materials</b>	Personal computer
<b>Procedure</b>	<ul style="list-style-type: none"> <li>• Create a 6grounds account</li> <li>• Connect with the members in your study group</li> <li>• Collaborate with each other to study</li> </ul>
<b>Evaluation</b>	The students will write a couple sentences on what they liked about it, what they didn't like, and if they thought it was helpful or not.
