

Money Video Assignment

Grade: Elementary-3rd Grade

Overview	Students will watch a Kaltura video to aid in furthering their knowledge of the values of each U.S. coin and their counting skills. This video will be a visual tool in showing the value of each coin, what it looks like, and how to add and subtract them.
Objectives	Students will be able to learn about the values of money and connect what they learn in class to a video where they can see the process of adding and subtracting first hand.
Materials	<ul style="list-style-type: none">• Computer• projector• coins (pennies, nickels, dimes, quarters).
Procedure	<ol style="list-style-type: none">1. Cover text on the appearance and value of U.S. coins.2. View Kaltura video to further understand how to add and subtract the various coins.

Assessment	After viewing the Kaltura video, students will identify then add and subtract coins individually for the teacher. This evaluation will be worth 10 points
State Standards	Applies to ISTE standards 1A and 2C. <ul style="list-style-type: none">• 1A: promote, support, and model creative and innovative thinking and inventiveness• 2C: customize and personalize learning activities to address students' diverse learning styles, working strategies, and abilities using digital tools and resources.
