

Career Internship Lesson Plan

Title and Grade Level	Career Internship Lesson Plan Grades (9-12) For classes that allow students to have career internships
Overview	The purpose of this lesson is to have students participate in real life settings that they plan on dealing with their career. The students will use Toodledo to organize their work schedule and complete work related tasks.
Objective	The objective of this lesson is that students will have a better understanding of their future and what they plan to do after school while staying organized during this time.
Standard	This lesson covers the Guidance standard of 9-12.1.10 The standard is about how the student plans to do with their career plans.
Materials	<ul style="list-style-type: none">• Computer (for the Toodledo website)• Any work related items their employer requires them to have
Procedure	Durring this lesson students will decide what they would like to do as a career. Then they will actually get to work in that field and experince what having a job like this would be like for them.
Evaluation	Students will have to write a report about their experience in their future career after their internship and keep a journal while working. They will also have to schedule all their tasks through Toodledo and stay organized.
