

LIFE GOALS

Overview	Students will create a Toodledo account and add their teacher as a collaborator so the teacher can watch over the student's work. The students will create a list of their short-term, long-term, and life long goals.
Objective	The objective is to help the students realize their goals that they want to achieve in life.
Standards	Standard 2b- Design and Develop Digital-Age Learning Experiences and Assessments, develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress
Material	<ul style="list-style-type: none">• A Toodledo account• Access to a computer with internet• A list goals that the students want to achieve
Procedure	<ol style="list-style-type: none">1. Explain to the students that they will be creating a list of goals that they want to achieve in life.2. The students should brainstorm for goals that they want to achieve in their lifetime. The goals can include short-term, long-term, and lifelong goals.3. The teacher should take the students to a computer lab and help them set up a Toodledo account.4. The students should then use the goal creator to help them make a complete list of their goals. The goal creator will keep track of how long it takes the students to complete the goal.
Evaluation	Their evaluation will be the teacher checking to make sure that every student has created a goal list and has put deep thought into their goals.
