

Introduction to Webnode.com

Title of Lesson: Make your own Website

Grade Level: Post-Secondary

Summary of Lesson	In this lesson students will create a website using webnode.com which makes it easy for beginners to create a professional looking website.
Objectives	The objective of this lab is for the students to learn and become familiar with how webnode.com works so that they will be able to use it as a resource in the future.
Materials Needed	<ul style="list-style-type: none">• Computer• Internet Access• Webnode.com
Procedure	<ol style="list-style-type: none">1. Students will go to webnode.com and read about how to use it to create a website.2. In class, students will do a trial run to practice using webnode3. After the trial run students will create their own website about whatever topic they choose (topics must be school appropriate and approved by instructor)4. Students will put together information, pictures, and videos to make an interesting and informative website.
Evaluation	Students will be evaluated on how well they show that they know how to use webnode.com. They will also be evaluated on how interesting their website is to look at and whether or not the website looks professional.
State Standards for Teachers	ISTE 2008 Standards 3. Model Digital-Age Work and Learning
