

## Elementary Science Lesson Plan (STEM)

Grades 4-6

|            |  |
|------------|--|
| Overview   | Students will be assigned readings throughout the school year from textbooks and other sources. Reading assignments, projects, and homework may be posted by the teacher on Posterous so all the students can view what they need to do.                                     |
| Objective  | Students will read assignments posted on Posterous and complete other homework their teacher communicates to them.   |
| Standards  | <b>Standard 1 – Academic Development</b><br>Students gain knowledge and develop skills required to attain academic success, maximize learning through commitment, produce high quality work, and be prepared for a range of options and opportunities following high school. |
| Materials  | Computer, Internet access  |
| Procedure  | In class, the teacher could discuss topics such as the cell. Students can then go home and log on to Posterous to see what their additional reading assignment is. The teacher can also periodically assign outside projects or experiments to be brought to class.          |
| Evaluation | Quizzes and homework assignments over the assigned readings will evaluate if the students are checking Posterous and reading their material.   |
