Practicing Sign Language

Special Education

Objective	• The teacher will display multiple pictures • Teacher can choose different photos from the labeled portfolios in the 72Photos website • Students can view the images on the big screen • Students will practice their signing of the pictures that they view on the projection screen
Standards	• The Indiana Standard for Academic Development is that the student will have a knowledge of sign language and develop the skills to sign • Students will have a basic understanding on sign language and their ability to sign • The students will be able to recognize the pictures and practice their signs
Materials	• Big projection screen to display the pictures on • The teacher has to have a 72Photos account to create the portfolios for the different picture lesson plans • Computer that hooks up to the projection screen so that images will be displayed

Procedure	• First, the teacher will log into their 72Photos account • Next, they will open up one of their labeled lesson portfolios with the organized photos that go along with the portfolio lesson • Once the lesson portfolio is chosen, the images will be displayed on the projection screen from the computer • Finally, the students will use their sign language and sign the different pictures displayed on the projection screen while gaining an understanding and ability to recognize the images so they will be able to sign them in the future
Evaluation	• Each week, we will start off with a theme for that week and within the portfolios off the 72Photos website will have pictures that correspond to the theme • We will have reviews throughout the week • At the end of the week, there will be a mini quiz on the theme pictures that we learned to sign and will be displayed on the projection screen
