## Hip-Hop Comic Strip
For Students in upper elementary school

### Lesson Overview
Students will use Pixton to create a comic strip based on the life cycle of a frog, or a creative made up story on the life of a frog. They will be given notes on frogs and a short quiz, then they will be asked to think creatively to create a comic strip.

### Objectives
Students will create a comic strip on Pixton to either show what they have learned about frogs, or a creative story about a frog.

### Materials
- Paper and crayons to make a rough draft on their story/comic
- Computer with internet access to log onto Pixton

### Procedure
1) Teacher will give a lecture with notes to students on frogs and their life cycle
2) Students will take a short quiz on frogs to be sure they understand all of the information
3) Students will be assigned the project to create a comic strip using Pixton to either show what they just learned on the life cycle of frogs or be creative and make up a story about a frog
4) Teacher will walk through Pixton with each student to show them generally how to use it
5) Give each student and allotted amount of time to make their comic online

### Evaluation
Student will present their comic to the class and be graded based on creativity and participation

### Standards
Standard four- The living environment
