

Contemporary Art

By Katrina Barkulis

Primary subject-Art

Grade level- Post Secondary

Overview	An introduction to Contemporary Art. Students will use vi.sualize.us to help them find pictures of paintings and will use the internet for further research about what type of painting it is.
Objective	The student will need to research different paintings of Contemporary Art and understand differences in the artists' techniques. They will use the Vi.sualize.us to find a painting they are interested in and they will then be required to paint that exact one. This allows students expand their knowledge of art and apply it.
Materials	Computer Template Paint Paper Paint brush
Procedures	<ol style="list-style-type: none">1. This will be done completely individually.2. The student will choose an artist they want to research.3. The student will go to the web site vi.sualize.us and examine the different paintings. They will then choose one painting to draw on their own.4. The student will then research more information about the artists' techniques and learn how to incorporate that into their painting. The painting should be from a picture on the vi.sualize.us website.
Evaluation	I will determine how they apply their understanding of Contemporary Art by examining their painting and taking note of the different styles and techniques they used.
