

Organizational Lesson Plan

Post-Graduate Level

Overview:	The purpose of the lesson is to provide students with organizational skills that will be beneficial in their future.
Objective:	Using Smub.it the students will be required to find academic journals about a topic of their choice.
Procedure:	<ol style="list-style-type: none">1. Give a detailed explanation of how to use Smub.it.2. Divide the students into groups of 1-3 members.3. Allow the students to discuss and agree on a topic to do the research on.4. Have each member of the group do individual research; afterwards the individual research will be combined into a single source.5. After all of the research is combined and consolidated the students decide what would be a good thesis pertaining to their topic.
Evaluation:	The students will finally write a research paper using the sources that are bookmarked by Smub.it to show that they understand the importance of organizing their resources.
