

Creating a Project Lesson Plan

Post-Graduate Level

Overview:	The purpose of the lesson is to allow students to use a social bookmarking tool as an aid in creating a project.
Objectives:	<ul style="list-style-type: none">• Develop organizational skills in students using Smub.it• Have students create a final project in groups showing the ability to consolidate information from many sources into one.
Materials:	Computer
Procedure:	<ol style="list-style-type: none">1. Explain what Smub.it is and how it can be used as an aid.2. Divide the students into groups.3. Each group is given a topic and the students in the group do individual research on the assigned topic.4. After individual research is completed the students share the websites they used by sharing with Smub.it5. Using the information from the website the students must combine that information into one source.
Evaluation:	After the information is consolidated they will combine the information into a final project and present it to the class. This will show the instructor that the students understand the material and know how to combine information from many different sources.
