

Secondary Education
Grades 10-12

Overview	Students will learn how to create a YouPoll website in order to connect with another class overseas in Germany
Objective	After creating a YouPoll, students will be able to connect with students in a different country and with 100 percent accuracy they will be able to collect any data information from the poll that they need to.
Standards	Standard S.1.3 states that students will compare sociology with other social science disciplines. The students will be relating with other students in Germany to figure out their social sciences compared to ours.
Materials	Students will need a computer, keyboard, and social studies book to research the different languages spoken
Procedure	<ol style="list-style-type: none">1) The students will be instructed on how to create a YouPoll website2) The students will then pick a classroom in Germany to have take their poll3) Students will set up their poll and figure out which languages are spoken4) The students will then take the data and draw conclusions from what they have learned.
Evaluation	In order to see if the students received the correct information, they will take a quiz over the different languages. Also, the students will have to personally show the instructor how YouPoll works in order to see if they truly understand the website.
