

## How to...

Grade Level: 5

Time frame: 30min.

Overview	Following this activity, students should be able to: <ul style="list-style-type: none"> <li>• Write step-by-step instructions that others can follow</li> <li>• Use the internet to create a to-do list in Backpack</li> </ul>
Objectives	After creating their step-by-step instructions, the students will post their instructions to a to-do list in Backpack with 90% accuracy
Standards	5.2.6 Write instructions that others can follow in carrying out a procedure.
Materials	Access to a computer and the internet for each student
Procedure	<ol style="list-style-type: none"> <li>1. Have students pick a procedure that they can give step-by-step directions on how to complete the task</li> <li>2. Explain to the student how to make their to-do list on Backpack and how to share it with me</li> <li>3. If students finish early, they can look at the to-do lists that the other students have created</li> </ol>
Evaluation	The evaluation that will be used to determine what the students have learned will be the Backpack to-do list that they created.
