# Vocabulary Words
## High School Freshman Biology Class

## Overview
The teachers will ask the students in the class to break up into groups of four. Each group will need to assign a fourth of the vocabulary words to each group member. Each group member will need to add their assigned words and definitions onto their group’s Wridea.com page. This assignment will take approximately two weeks, ending with a vocabulary test.

## Objectives
- Students will learn how to use Wridea.com as a group organizational tool.
- Students will work together and help each other reach understanding of the vocabulary words.
- The students will practice getting each task done its due date.

## Materials
The teachers will ask the students to have:
- A computer with internet access
- A Wridea.com account
- A Wridea.com group page
- A list of vocabulary words to be studied.
- Sources to find all the definitions of the vocabulary words

## Procedure
The teachers will ask the students to:
1) Evenly distribute vocabulary words to each member of the group
2) Create a group page on Wridea.com and add all of the members to the page
3) Each member must add their portion of the vocabulary words with definitions to their group page by the given due date.
4) Once all of the words and definitions have been added, all students must study the words by the time of the test.

## Standards
**Principle of Biology**

B.1: Students work with the concepts, principles, and theories that enable them to understand the living environment. They recognize that living organisms are made of cells or cell products that consist of the same components as all other matter, involve the same kinds of transformation of energy, and move using the same kinds of basic forces. Students investigate, through laboratories and fieldwork, how living things function and how they interact with one another and their environment.

## Evaluation
The students will evaluate each group members’ performance. The students will be evaluated on their ability to work with all group members. The students will also be evaluated on the quality of work they have shown through defining the vocabulary words. The students will take a vocabulary exam at the end of the section and will be evaluated on the quality of the definitions written for each word on the exam.
