

me: Jacks Csaszar		School: Purdue University		Grade: Freshmen		Class Size: 20	
Lesson Focus: English			Course Instructor: Jacks Csaszar		Date: any		Lesson No.: 1
Facility: Computer Lab			Equipment: 20 Computers				
Student Performance Objectives: <i>Students will research Intodit and Wikipedia and write a 2 page paper describing the differences between the two.</i>							
Teacher Performance Objectives: <i>During the lesson, the teacher will introduce the students to the Intodit and Wikipedia websites. They will also describe the requirements for the paper.</i>							
Lesson Sequence				Equipment/Assessment			
Introduction: The teacher will explain to the students what wiki pages are and the different uses for them. The teacher will then introduce the students to Intodit and Wikipedia.				20 computers with Internet access			
Mid: The teacher will give the students the web addresses and allow them plenty of in class time to research both wiki pages. The students will then have one week to write a two-page paper describing the differences between the two wiki pages.				20 computers with Internet access			
Closure: At the end of the week, the students will turn in their completed papers. The teacher can use his/her judgment based on information covered, length of paper, and grammatical accuracy to grade the papers.
