

Real world application

Lesson plan for post secondary school

1.Introduction	Introduce the text and what the students are expected to focus on and how and where the evaluation will be conducted.
2. Objectives.	Learn how to take a stand and debate for your opinions.
3. Materials.	A relevant text about modern society taken from different appropriate polls at youpolls.com.
4. Survey.	The class will be conducted in a computer lab. The students will complete a survey about the text on youpolls.com
5. Evaluation.	After the survey the class will gather in a classroom and can be divided in smaller groups and discuss the result of the survey in an open discussion. Or the class can be divided in pairs and debate in favour of or against a certain poll.
