

Planets using Stixy	
Objective	The students will learn how to use Stixy by being able to learn about planets. The students will be able to view pictures of the planets on Stixy. The students also will be able to learn unique information about each planet as the information will be posted on Stixy. The second grade students will be able to view the date of their upcoming quizzes on the planets.
Learning Environment	The students will work individually at a personal or lab computer. They will use Stixy through the Internet.
Types of Students	The students will be in elementary school and specifically grades 3-5.
Standards	<p>WRITING: Applications (Different Types of Writing and Their Characteristics) 3.5</p> <p>3.2.7 Ask "How do you know?" in appropriate situations and attempt reasonable answers when others ask the same question.</p>
Materials	Personal or lab computer with internet access, Stixy.
Procedures	<ol style="list-style-type: none"> 1. The teacher will sign each student up for a Stixy account. 2. Go through the Stixy website and instruct the students on how to use Stixy. 3. After the students have learned how to use the program, they may begin viewing the website. Allot a certain amount of time each week in class for the students to complete this assignment. 4. After the students have finished viewing the planets/ information and the allotted time is complete, they will write down on a paper one fact they learned during the learning experience. They will do this twice a week.
Application	After learning how to use Stixy, the students will use the program to learn about planets.
Evaluation	The students will write one fact twice a week about something they learned during their learning duration. 10 points will be awarded for each summary each week.
