

	<b>Technology Fun Groups</b>
Objective	Student will get more experience with technology and with Stixy. Each student will be required to form their own group and apply it to know how to chat and post material using Stixy.
Learning Environment	The students will work individually at a personal or lab computer. They will use Stixy to create the groups that are required.
Types of Students	The students will be in elementary education and want to communicate outside of class.
Standards	<p>1. Engineering and Technology Education: (Understand the integrated relationship of technology with other academic fields, particularly language arts, math, science, and social studies) MS. 3</p> <p>2. Engineering and Technology Education: (Work cooperatively and productively in groups to design and use technology to solve technological problems.) MS. 5</p>
Materials	Personal or lab computer with access to the internet.
Procedures	<ol style="list-style-type: none"> <li>1. During the computer lab time, the teacher will teach them how to make a group, since they already know how to use Stixy. It will be a fun and creative name that they can remember (*They are the creator). Also remember each member needs to have a valid email address.</li> <li>2. Tell them that they need to invite 5 to 7 friends to join their group. It can be family members, friends; but only 2 friends can be from this class.</li> <li>3. Their group members from Stixy will need to create accounts that everyone can see who is who,</li> <li>4. After all the group members have joined, they are required to complete 30 posts that communication is being done for Stixy.</li> </ol>
Application	The students will work individually at a personal or lab computer. They will use Stixy to create the given posts that are required.

Evaluation

I will simply grade them on how serious they take the assignment and apply it for useful information. Since they will need to use outside people, they need to make sure that the other friends are willing to use it also. If they complete the assignment early, then they will receive 3 extra credit points.
