

## Under the Sea Spaaze Lesson Plan Grades 2-3

<b>Objective</b>	At the end of this lesson, students will be able to use Spaaze to create a page of information related to topics learned in class
<b>Research or knowledge needed before activity</b>	<p>Students will need to have to know how to use computers at the elementary school level, know how to use the keyboard, mouse, internet and simple functions on the computer</p> <p>Students will also need to have a background knowledge of the sea animal they want to research and the ability to tell a reputable website from a not reputable website</p>
<b>Activity</b>	<ul style="list-style-type: none"> <li>- As a classroom we will go into the computer lab and use Google to search for websites containing information on the sea animal students are doing their project on</li> <li>- Students will look for websites that have facts and pictures of their animal</li> <li>- Students will find 5 pieces of information and 5 pictures of their animal</li> <li>- They will compile the pictures and facts using Spaaze and create a corkboard of all their information.</li> <li>- Students will then use this to create a small booklet of their animal.</li> </ul>
<b>Materials needed</b>	<ol style="list-style-type: none"> <li>1. Computers</li> <li>2. Paper</li> <li>3. Markers, crayons,</li> <li>4. Printer for printing pictures and facts</li> <li>5. Google and Spaaze access</li> </ol>
<b>Assessment</b>	Students will be graded on how well they put together their corkboard and if all the information that they had on their Spaaze page is transferred to their booklet.
