Researching Websites

Basic college English course

Approximately 90 minutes

Overview

Students will be in a group of 3 and they will be doing a research project over three websites. The students will have a week to learn everything they can about the websites and write a paper.

Objective

- Students will research the above sites and write a paper on what they find.

Standards

Basic English college course

Materials

1. A computer
2. Microsoft word
3. Internet to look up the three websites.

Procedure

1. Students will pick their group of 3.
2. Students will spend one class period (80 minutes) in the computer lab researching the sites.
4. After researching each website, the students will write about what they found in the website, what they learned in the website, how to use the website, and which website is better.

5. The paper will be at least 1.5 pages long for each website, being at least 4.5 pages long minimum.

6. The students will email me their papers by the end of the week.
