## 7th grade Geography Lesson Plan

<table>
<thead>
<tr>
<th>Objective</th>
<th>The objective of this lesson is to teach the countries of the world to students learning geography. They will listen to a song that has been edited by Wavosaur. The song will contain all the countries in Africa. The students will write down the name of the country each time they hear one that is from Africa.</th>
</tr>
</thead>
</table>
| Materials         | Paper  
Pencils  
Computer to play the edited song |
| Procedure         | 1) The students will be given a piece of paper and a pencil.  
2) A song will be played that has countries from all over the world in it.  
3) Each time an African country is said the students will write down that country on the paper. There will be 15 African countries in the song.  
4) When the song is over, the teacher will look at each of the papers.  
5) The student that has the most correct countries will get three extra credit points. |
| Assessment        | The students will be graded on a rubric:  
13-15 countries: A  
10-12 countries: B  
7-9 countries: C  
4-6 countries: D  
Less than four countries: F |
