### Objective
The objective of this lesson is to teach the French alphabet to beginning French students. The students will listen to a song that has been edited by Wavosaur, which has the French Spanish alphabets in it. The students will be given a handout that has all the letters of the French alphabet on it. Each time the student hears a French letter, they will have to make a tally mark by that letter on the handout.

### Materials
- Handout
- Pencils
- Computer to play the edited song

### Procedure
1. The students will be given a handout that contains all the letters of the French alphabet.
2. A song that has the French and Spanish letters in it will be played.
3. The students will listen to the song.
4. When they hear a French letter, they will make a tally mark by the letter they hear on the handout.
5. Each student will have to say two of the letters they found, to practice speaking.
6. The students who has the most letters correct will be given five extra credit points.

### Assessment
The students will be graded on a rubric on how many letters they found.
- 25-30 letters - A
- 20-24 letters - B
- 15-19 letters - C
- 10-14 letters - D
- Less than 10 letters - F
