

Title	Marine Animal Presentation
Objective	The students will become familiar with the various types of Marine animals. They will learn facts about the animals in their habitat.
Learning Environment	At home assignment.
Types of Students	Undergraduate
Standards	N/A
Materials	Access to the internet and YouTube.
Procedure	<ul style="list-style-type: none"> • Students will find five animals that YouTube has videos on • Students will make a chart about five things they learned about each animal. • Students will then pick one of the five and make a presentation for the class about the animal and its diet, habitat, features, enemies, and other information they will find.
Application	This project is designed to get the students thinking about the types of marine life we will be discussing throughout the semester.
Evaluation	<p>Points based:</p> <ul style="list-style-type: none"> • Ten points for the chart • Ten points for video included in the Presentation • Ten points for Delivery • Twenty points for the four topics discussed in procedure
