

Voo2Do Elementary Lesson: Holidays	
Objective	Students will learn about holidays and their dates using Voo2Do
Learning environment	The students are in 2nd grade and will have access to a computer lab.
Description of students	2 nd grade students
Standards	1a,1b,2a
Materials	Computer
Procedure	<ol style="list-style-type: none"> 1. Each student will be assigned a holiday to research including holidays from other cultures and countries 2. The teacher will give an introduction to Voo2Do 2. The student will present on their researched holidays 3. After taking notes on the holiday presentations, the students will compile the holidays into a year long calendar on Voo2Do.
Evaluation	Students will be graded on their presentations and the calendars they print off of Voo2Do and turn in. The best calendar will be displayed in the classroom and the class will observe each holiday as the year continues.
