Materials	<p>One computer for every student.</p> <p>Grading rubric handout</p>
Procedure	<ol style="list-style-type: none"> <li>1. Instructor hands out grading rubric.</li> <li>2. Students will read <u>The Odyssey</u> outside of class along with in class discussions.</li> <li>3. Instructor will give a tutorial of the Voo2Do software.</li> <li>4. Assigns this project and explains that the students must use Voo2Do to organize and detail the places Odysseus visits.</li> <li>5. The students will use Voo2do calendar and the ability to assign due dates in the Voo2Do application to develop a set of tasks that represent the different stages Odysseus' journey. The ability to assign lengths of time to the different tasks will allow students to see Odysseus' full journal.</li> <li>6. The final result should be a calendar depicting the stages of the journey.</li> </ol>
Application	Each student will use the Voo2Do calendars to make maps of Odysseus' journey.
Evaluation	At the end of two weeks the online calendars will be shared with the teacher by e-mailing him or her the student's individual Voo2Do URL. They will be graded on a scale of 100 points according to the quality of the research and organization as well as efficiency of planning using Voo2Do. The students will also turn in their maps which will be graded out of 50 points.
