# Baseball Facebook Group

**Grades 6-8**

| Overview | Goal of this activity:  
| --- | ---  
|  | • Students who enjoy watching or playing baseball have a network fan group where they can interact with one another.  
| Objective | The idea is to give students a place where they can identify and connect with each other. Having a group on Facebook will allow students to share and express their passion for the game of baseball.  
| Standards | 1. Members must be interested in or have a passion for baseball.  
|  | 2. Available for students grades 6-8.  
| Material | • Created Facebook account  
|  | • Availability to the internet  
| Procedures | 1. Go to [www.facebook.com](http://www.facebook.com) and create an account.  
|  | 2. Type in DeKalb Middle School baseball fan group in the search bar.  
|  | 3. Click “join group” and you are officially a member of the fan group.  
| Evaluation | Each week I will check to see how students are using the fan page. I anticipate that the page will mostly be used during baseball season, but I hope that it is used year round.
