

	<b>GoogleDocs STEM Secondary Lesson Plan:</b>
Overview	The students will create a personal monthly budget using GoogleDocs.
Objective	After learning about budgeting, expenditures, loans, and interest, students will create their own monthly budgets.
Learning Environment	Students will work on this project on their own time and outside of class.
Description of Students	High school students studying Micro Economics.
Standards	This project will satisfy Indiana's Academic Standard 1a and b for Math
Materials	Access to research materials, including textbook and internet. Internet access for GoogleDocs
Procedure	<ol style="list-style-type: none"> <li>1. Instructor lectures about the project</li> <li>2. Students record their past months expenditures, credit card rates, etc.</li> <li>3. They will calculate their next months' costs and create their budgets on GoogleDocs</li> <li>4. They will share the budgets with the instructor through GoogleDocs.</li> </ol>
Evaluation	Students will be graded based on the instructor's desired level of thoroughness for the budget, as based on a rubric.

Personal Monthly Budget			
	Projected	Actual	
Page #1 of 1	1,000.00	1,000.00	0.00
Total Income	1,000.00	1,000.00	0.00
Total Expenses	1,100.00	1,000.00	100.00
	800.00	800.00	0.00
