## Objective

Students will have a given business where they need to communicate with one another using a website called Yammer with parental help.

## Materials

- Computer with internet access
- Pencil
- Paper
- Parental help

## Procedure

- Students will be broken up into groups of 4.
- Once broken up into groups, students will be given a “business”.
  - Ex. Lemonade stand
  - Ex. Cookie sale
- After business is selected then students have 10 minutes to discuss general ideas about the business.
- While at home, parents will sign up for a Yammer account.
- Within Yammer they need to answer the following four questions:
  - How many customers do we have? (1-100)
  - What is the color of our sign? (Red, Blue, or Green)
  - Do we like our business and what we sale? (Yes or No)
  - Can parents use what we sale too? (Yes or No)
- Each student will ask the other students these questions and all have to reply to all four questions.
- Each question and answer need to be wrote down on a piece of paper.
| **Assessment**                        | ✓ Once all questions are answered and recorded then parents can log out.  
|                                      | ✓ Students will need to turn in the questions and answers for credit. |
|                                      | ✓ Students will need to communicate with one another given a set of questions to answer with their own opinion give their business.  
|                                      | ✓ Each student will be graded individually although work is done as a group |
| **Vocabulary**                       | No vocabulary for this section. |
