

- Zoho Wiki is user friendly tool that allows you to build a website with multi-media contents, and many different users at the same time.
- It allows people to share thoughts as well as businesses and industries a place to stay in touch and talk about work topics outside of the workplace.

Users

- Anyone with internet access and a Zoho, Google, or Yahoo account.
- It is very convenient for businesses to use the site for organizational purposes.
- Non-profit organizations receive a 15% discount off of any Zoho Wiki options.
- Teachers and students can use it for interactive online courses.

Benefits

- The wiki can be accessed for no fee by anyone around the globe with internet access.
- Zoho Wiki has 4 available interface languages: English, Japanese, Norwegian and Chinese.
- This Zoho application allows for the integration of other Zoho applications.

Educational

With the assistance of Zoho Wiki we were able to collaborate with our group partners in our class and our four international partners. We were able to edit the project from our own personal computer without having to be in the same room.
