

Business Promotion & Expansion

Overview	Zoho Wiki empowers you to host your web pages as a Business portal to promote and expand the business among your customers / clients.
Objective	Assign tasks, milestones, add notes, paste images, post meeting agendas, media contents to ensure the business is 100% effective even if operating from a different location.
Materials	<ul style="list-style-type: none">• Computer with internet access• Zoho Wiki Pages
Procedure	<ol style="list-style-type: none">1. All members of the business need to create a Zoho Wiki account.2. A Manager who wishes to start a new initiative creates a space and holds discussions with the team to get their feedback. The team can now share their ideas, brainstorm, post their views on the new proposal. Based on this he can consolidate and start designing for his new initiative.
