# Wikia in Business

**Developing a Computer Game**

| | |
|---|---|
| Objective | To develop a new computer game |
| Materials | <ul><li>Computer</li><li>Internet Access</li><li>Game designing software</li></ul> |
| Note to Programmers | Compare different types of games already on the market to develop a new successful game. |
| Procedure | 1. Compare games on Wikia.<br>2. Read the comments for the games.<br>3. Go through the levels to see what seems to work and not work for gamers.<br>4. Use this information to start the development process for a new game. |
| Evaluation | Game must have mass appeal to gamers, be interesting, and the development must meet deadlines.<br>. |
