

Group Ecosystem Project¹

Grade 5 Science Lab

Objectives	Throughout this activity, students should become familiar with: <ul style="list-style-type: none"> • Navigate the internet • Create and account and log onto Google Presenter • Create a group project on Google Presenter
Teaching Standards	Students collect and organize data and compare information.
Materials	Materials needed include: <ul style="list-style-type: none"> • Computer • Internet connection • Group cooperation in finding information
Procedures	Access Google Presenter through Google Docs by logging onto the internet and navigating through Google.com. Create a new project through Presenter, then choose an Ecosystem that interests you (students will be in groups of 4-5 and Ecosystems can only be chosen once). Collect information from online sources or through book in the library and create a project that helps other students learn about your project. Be as creative as you'd like and include interesting facts that you think your peers would enjoy. Include pictures and facts, but remember: cite your sources! MLA format guidelines are available through the teacher.
Evaluation	Students will be graded on how well they are able to: <ul style="list-style-type: none"> • Collect information into Presenter • Presenting project to class • Preparing a well organized and appealing project
Grading Scale	Information collected ___/10 Presentation ___/20 Organization/Appeal ___/20
More information	Students should take notes on each Ecosystem to prepare for quizzes or test within the classroom.

¹Lesson plan self created and can be used by anyone, no permission required.
