

Lesson Plan 1: Elementary Education- Learning about the Different Leaves (Created by Shana Musall)

Grade Level: 4/5

Objectives: After completing this lesson the students will be able to:

- Name the different trees and identify them by their leaves.
- Be more familiar with using a camera.
- Be more familiar with uploading the images on BubbleShare.

Overview: This lesson will provide the students with useful knowledge about trees and their leaves. They will be able to go around to the different trees and take pictures of the leaves so they will be able to identify them later. The students will upload the images onto BubbleShare and make a Leaf Collection Album.

Materials:

- You will need a camera
- be able to go to a location with many trees
- A computer to upload the photos

Procedures:

1. The students will be put into groups for this lesson.
2. Each group will receive a camera and go around to the different trees.
3. They will take a picture of a leaf off of each tree.
4. They will upload the photos onto BubbleShare and put the name of the tree under the image of the leaf.
5. By the end of the lesson, they will know the names of each tree by looking at their leaves.

Grading: The students will be graded on if they have the correct name of the tree with the corresponding leaf. They will also be graded on if the images are properly uploaded onto BubbleShare. The students will be graded using the usual grading scale which is A-F.
