

Lesson Plan 3: Elementary Education- Learning Spanish Words (Created by Shana Musall)

Grade Level: 2-4

Objectives: After completing this lesson the students will be:

- Able to learn a few Spanish words
- Become more familiar with Spanish words

Overview: This lesson will provide the students with a Spanish background. The students will be able to go around and take pictures of the Spanish word they are learning. Once they take the picture, they will upload the image on BubbleShare and write the Spanish word under the photo.

Materials:

- You will need a camera
- A computer to upload the images onto BubbleShare

Procedures:

1. Each week the teacher will introduce a new Spanish word to the class.
2. The students will each have to take a picture of whatever the Spanish word is.
3. Each student will receive a camera and will capture the image.
4. Then the student will upload the photo onto BubbleShare and have the Spanish word and the English word that represents the image below it.

Grading: The students will be graded on if they have the correct image with the correct Spanish word. They will also be graded on if the images are properly uploaded onto BubbleShare. They will be graded with the standard grading system which is A-F.
