

# Ethnicity and Culinary Arts

## Post-Secondary

Objectives	To gain a better understand of what it takes to create ethnical foods.
Overview	When students first enter the room they will be given the option of picking an ethnicity they are interested in. They will then need to conduct the research and engage in the ethnicity they have chosen.
Materials	<ol style="list-style-type: none"> <li>1. Computer with webcam</li> <li>2. Headphones and microphone</li> <li>3. Notebook paper and pencil</li> <li>4. Supplies necessary to complete your recipe</li> </ol>
Procedure	Students will be required to conduct research on ethnical foods. The ethnicity of the food is their choice. Once the student has chosen the ethnicity they are most interested in they will need to see their TA for approval. Once approval has been granted the student needs to find a recipe that they are interested in. The recipe needs to come directly from an international partner that they will be assigned after the ethnicity of their choice has been chosen. The interactions need to be conducted through Google Talk Video.
Grading	An evaluation will be done on the student as they present their findings to the class. There will be a rubric handed out with a list of requirements the student must meet. If all requirements are met then the student will receive the appropriate grade.
