# Using Picnik to Practice Grammar

**Grade Level: 3-5**  
**Created by: Katherine Long**

<table>
<thead>
<tr>
<th>Overview</th>
<th>The purpose of this lesson is to teach students basic grammar skills with taking pictures of their favorite things.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Objective</td>
<td>By using the text-adding capability found on Picnik, students will be able to write on their favorite pictures using proper grammar on all sentences.</td>
</tr>
</tbody>
</table>
| Materials | • Computer with Internet access  
• Digital Camera  
• Registration with Picnik  
• Access to a color printer |
| Procedure | 1. Students will take pictures of their favorite things. (Specify amount-approximately 5)  
2. Students will then upload them to a computer that is connected to the Internet.  
3. The students will use picnik.com to edit and enhance their photos.  
4. Students will add captions to the pictures that best describe them using basic sentence structure.  
5. After the activity is completed, the students will be quizzed over the different parts of a sentence. |
| Evaluation | To evaluate the students’ process of this subject, a short quiz will be given a few days after the project is complete. This will give the students time to review and allow for them to ask questions if problems arise. A few example questions that may be asked are as follows:  
1. Underline the noun in this sentence.  
2. Circle the verb in this sentence.  
3. Draw a square around the predicate of this sentence.  
4. What is the punctuation that should go at the end of this sentence?  
5. Underline the letters three time that need to be capitalized in this sentence. |
