# Geography Lesson Plan

## Overview
Students will research the Seven Continents of the world to improve their world perspective while collating that information on a Group Notebook on Springnote.

## Materials
- Internet
- Computer
- Springnote Group Account

## Procedure
1. Have a Springnote Group page made with seven sub pages (one for each continent).
2. Students will be put into groups of seven.
3. Each student will be given a number. Each number is assigned to a continent. (eg. 1. Asia 2. Africa etc.)
4. Each student researches information about their continent
   - five points of information
   - two pictures
5. The information is then posted on Springnote along with a world map that has the seven continents labeled.

## Evaluation
Students will be graded on the quality of their information and pictures, their ability to work on their own, and as part of a group.
