**Timeline on Benjamin Franklin Using Springnote**

*Grade Level: Third Grade*

<table>
<thead>
<tr>
<th>Overview</th>
<th>Students will make a time line with paper first, and then transfer it to the computer using Springnote.</th>
</tr>
</thead>
</table>
| Materials | • Construction paper  
• Markers  
• Computer  
• Springnote group account |
| Procedure | 1. Have the students do some research on Benjamin Franklin. They need to find some dates and events (enough events for number of students in the classroom.  
2. Have the students make a timeline with their dates and events using markers and construction paper.  
3. Move the students into a computer lab and show them how to get to the Springnote group account you have set up for this project.  
4. Assign each student one year and the event that goes with that year.  
5. Each student needs to enter in his/her date and event.  
6. Now they all need to work together to order the events in chronological order. |
| Evaluation | Each student will be graded on their ability to work together and order their dates correctly. |
