## Overview
Students will collaborate to build a Springnote Encyclopedia that will strengthen the students understanding and usage of the past, present, and future verb tenses. They will also learn how to work together in a group through the usage of Springnote.

## Materials
- Internet access:
- Springnote accounts
- Textbook providing reference for past, present, and future verb tenses

## Procedure
1. Students should have a general knowledge of using the past, present, and future tenses.
2. Create a Springnote Account.
3. Make a Group Notebook and invite the students to join via the “invite members” portion of the Springnote page.
4. Have students make a Springnote account and check their e-mails to be able to access the Group Encyclopedia page.
5. Every student must write an article for each of the following “Encyclopedias.”
   a. Encyclopedia 2000: The students will find a topic and write an article about what happened, using the past tense.
   b. Encyclopedia 2009 (current year): The students will find a current issue and write an article using the present tense.
   c. Encyclopedia 2040: The students will think about what might happen and write an article using the future tense.
6. Once the students have written the articles, they must post them into a Group Notebook.
7. Sub pages can be made to separate the three “Encyclopedias.”
8. For extra credit, have the students add picture or videos to the Springnote pages that are relevant to the articles they wrote.

## Evaluation
The students will be graded on their ability to properly use each verb tense.
