

THIS IS AN EXAMPLE OF A LESSON PLAN USING JUSTIN.TV THAT COULD BE USED TO TEACH A 9TH GRADE CLASS

PHYSICAL EDUCATION: BASKETBALL ZONE DEFENSE

Overview	The purpose of this activity is for students to learn the fundamental concepts of a zone defense in basketball.
Objective	<p>Students will :</p> <ul style="list-style-type: none"> • Break the habit of everyone gravitating to whoever has the ball • On the offensive end, students will utilize non bounce passing skills to successfully share the ball with teammates. • Additionally, students will learn how to move without having the ball in their hands.
Learning environment	Gymnasium
ISTE/NETS Standards	1) Engage in Professional Growth and Leadership.
Materials	<ul style="list-style-type: none"> • 5-6 hula hoops • 2 basketball goals • 1 basketball
Procedure	<ol style="list-style-type: none"> 1) The teacher can set up different types of defenses such as a 2-1-2, a 3-2, or a 2-3 around the basketball goal using the hula hoops. 5-6 students will be selected to play defense. Those students will be restricted to either standing inside the hula hoop or have one foot in and one foot out (teacher's choice) until a turnover occurs or basket is scored. In doing so, students will understand his/her area in the zone defense. 2) The offense must chest-pass the ball to one another without letting the ball touch the ground. Therefore there is no dribbling in this activity. The student must freeze when he/she receives a pass and quickly decide who they will pass to next. Each person on offense must pass at least once the ball before a shot can occur. Encourage students to move around as much as possible and find open space to handle the ball and receive passes.

	<p>3) Each time the defense tips a pass away and the ball touches the ground it is a turnover and they switch. Offense becomes defense and vice versa. When each player gets a pass and can shoot if the ball touches the ground it is considered a turnover. However, if a student gets the rebound, they can shoot again.</p>
Application	<ul style="list-style-type: none"> • Students will play the game out during class.
Evaluation	<ol style="list-style-type: none"> 1) The student must pass the ball successfully without the ball touching the ground before shooting. 2) The defense must stay within their hula hoop space and make an attempt to disrupt the offensive team's passing lane.

*****THIS GAME CAN BE WATCHED LIVE ON JUSTIN.TV FOR CHILDREN TO SEE HOW TO START TO PLAY IT.**
