### Overview
Students review the previous assignments regarding the Causes of World War II. They will be asked to break into groups of 2 and create a flow chart of events using the Scriblink application.

### Objective
After this activity, students should be able to correctly identify the main causes of World War II.

### Standards
WH. 8.4 Identify and analyze the causes, events and consequences of World War II.

### Materials
Every two students will need a computer with internet access and materials used in previous lessons about the Causes of World War II.

### Procedure
- Based on previous lessons, students will create a flow chart that contains the causes of World War II.
- Students will then be given a quick introduction on how to use Scriblink and its’ basic features.
- The groups will then be asked to turn their flow chart into a Scriblink flow chart.
- The chart should be interesting in color and design as well as accurate in terms of events leading up to World War II.

### Evaluation
Students will be evaluated on the accuracy of their content and the visual appeal of their chart. The chart should be useable to the students for the rest of the unit on World War II. It will be worth 10 points.
