<td>Overview</td>
<td>The Sales Committee of a company will use bubbl.us to map out the sales of all their products.</td>
</tr>
</tbody>
</table>
| Objective         | The committee will use a map to keep track of the following:  
  1. All company products.  
  2. Sales of each product.  
  3. Other important information about each product. |
| Materials         | • Product information.  
  • Computer and Internet access for all committee members. |
| Procedure         | 1. Members will first make bubbles of all products within the company.  
  2. Next, they will go through and add information bubbles for each product.  
  3. Use map for presentations or personal organization. |
