

Graduate	Thesis
Overview	Students will use bubbl.us to gather ideas for what specific topics are going to be included in their thesis.
Objective	<ol style="list-style-type: none"> 1. Bubbl.us allows the students to organize what ideas and how in depth they want to cover topics for their thesis. 2. Using bubbl.us free online accounts, the students can save their mind maps online so that they can continuously add onto what information they want to include into the paper. 3. The students can use bubbl.us in addition to outline the content of their paper by allowing the graduate student to print out their mind map in an outline format.
Material	<ul style="list-style-type: none"> • Computer and Internet access • A free bubbl.us account
Procedure	<ol style="list-style-type: none"> 1. The students will log onto bubbl.us and create a free online account. 2. Instruct the students to put the topic of their thesis in the main parent bubble. 3. Then the student can put bubbles attached to the main parent bubble containing what specific information they want to include in their thesis. 4. Next, the students can add bubbles off the bubbles that they just created to show how in depth they want to go with the content of their thesis. 5. After the student has completely created their mind map, instruct the student to print out their mind map in an outline format so that they can use it for how to structure the paragraphs. 6. Finally, the student can turn in their mind map and outline if the instructor specifies if they want all the pre-writing and research/sources turned in with the final paper.
