# Purpose of Bubbl.us

## Bubbl.us can be used for:

- Brainstorming ideas
- Creating handouts
- Creating flow charts
- Building a family tree
- Presentations
- Notes

## How does Bubbl.us work?

Bubbl.us is powered by Flash, and makes it easy for anyone to quickly start planning and sorting out ideas through the use of linked text bubbles. It is free and allows you to post your designs on a web page or blog to share your creations with friends.

**Signing up for an account is free and easy!**

## How can Bubbl.us be used in an educational setting?

Teachers have found many ways to incorporate Bubbl.us into their classrooms. Class discussions, assignment directions, and pre-writing webs are just a few ways to use Bubbl.us in the classroom.

The main way teachers use the website is to have their students brainstorm and map out projects and papers. It is a great way for students to organize their research and ideas.

Another way teachers use Bubbl.us, is in group projects. Students are allowed to network with each other and look at the mind-maps of others. Also, because you are able to network with others, teachers are able to grade their students' homework online, peers are able to do peer reviews on their own time, and it is all paperless!

**Check out some great lesson plans to use in your own classroom, located on our wiki page!**

**Elementary**

**Secondary**

**Post- Secondary**

**Business/Industry**

## Where is Bubbl.us used?

Bubbl.us can be used in situations that help thinkers lay out their thoughts in an organized and concrete manner.

It allows its users to creatively display ideas and thoughts., and it is used in schools, businesses, and at home.

**Bubbl.us can be used anywhere!**
