

Title: Using Tokbox in a Business Class
Grade Level: Post Secondary
Subject: Business

Overview:

- Students will understand corporate jobs and business in a manor they would normally not be able to.

Objective: Students will be able:

- To communicate with one or more Business Professionals
- Students will be able to interact and ask questions about the Business the Professional is representing
- Students will be able to understand the jobs of these Professionals as if they were one on one job shadowing.

Standards:

-

Materials:

- Computer with microphone and webcam
- Tokbox account

Procedure:

- Professor should be in contact with a Business Professional that is willing to take time to ask questions or to get a presentation on their company. If possible find a Professional that will let the students watch an actually video conference taking place.
- Once time is set have all the students either sit at their own computer or sit around one central computer.
- Have students take turns talking and asking questions with the Professional or have them sit quietly while they watch the conference take place.

Evaluation:

- Informally asses the students ability to talk professionally with the business Professional
- Informally asses the students by the question they were asking and if they understood the context..
- Formally asses students by grading the test at the end of the chapter or lesson that includes topics that were addressed with the Professional
