

Title: Using Tokbox in a Spanish class
Grade Level: Post Secondary
Subject: Spanish

Overview:

- Students will be able to understand Spanish better and clearer

Objective: Students will be able:

- To communicate with a Spanish speaking classroom taking English in Mexico
- Students will be able to interact with questions while speaking Spanish to students in Mexico
- Students will be able to see a different classroom from the country they are studying.

Standards:

-

Materials:

- Computer with microphone and webcam
- Tokbox account

Procedure:

- Professor should be in contact with a Professor in Mexico and set up an account with Tokbox and set up a time for students to communicate
- Once time is set have all the students either sit at their own computer or sit around one central computer.
- Have students take turns talking and asking questions with the students in the classroom from Mexico

Evaluation:

- Informally asses the students ability to talk and understand the Spanish speaking students from Mexico.
- Informally ask your students questions about what was said among the English speaking students and the Spanish speaking students.
- Formally asses students by grading the test at the end of the chapter that includes the topics talked about with the other classroom
