

Title: Using Tokbox for a Communications Speech Class
Grade Level: Post Secondary
Subject: Communications

Overview:

- Students that are distant learners will give speeches through Tokbox that will be watched by the Professor and graded.

Objective: Students will be able:

- To give their live speeches through Tokbox so the professor can grade their speech as if the student was giving the speech in a classroom.

Standards:

-

Materials:

- Computer with microphone and webcam
- Tokbox account

Procedure:

- Student and professor will make a time to video chat over Tokbox
- Once student and professor have made their accounts and a time to chat, the student will then give his or her speech in live time to the professor.
- Once the speech is done the professor can ask questions or critique the student.

Evaluation:

- Professor will grade the students ability to give an effective speech with using the objectives mentioned in the course material.
