Human Vimentin Biotinylated Antibody
Antigen Affinity-purified Polyclonal Goat IgG
Catalog Number: BAF2105

Certificate of Analysis

Size: 50 μg
Lot: CBFJ0815121

Description

Source Polyclonal Goat IgG
Purification Antigen Affinity-purified
Species Reactivity Human
Immunogen E. coli-derived recombinant human Vimentin
Ser2-Glu466
Accession # P08670
Specificity Detects human Vimentin in Western blots.
Formulation Lyophilized from 100.0 μL of a 0.2 μm filtered solution in PBS, pH 7.4 with 50 μg BSA per 1 μg as a carrier protein.

Applications

Please Note: Optimal dilutions should be determined by each laboratory for each application. Datasheet available on the website.

Preparation and Storage

Reconstitution Reconstitute at 0.2 mg/mL in sterile PBS.
Shipping The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.
Stability & Storage Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
  • 12 months from date of receipt, -20 to -70 °C as supplied.
  • 1 month, 2 to 8 °C under sterile conditions after reconstitution.
  • 6 months, -20 to -70 °C under sterile conditions after reconstitution.
Date Bottled 12/28/2015

It is hereby certified that the above product has been tested for proper performance and function under our established Quality Control testing criteria. It is authorized by our Quality Assurance program to be released for sale.
