I. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product/Trade Name: DuraForm™ 316 L (Stainless Steel Powder)

Chemical Family: Metal Powder

Product Use: For use with the Sinterstation™ DM100 and DM250 Systems

II. COMPOSITION INFORMATION

OSHA Classification: Irritant, Sensitizer (29 CFR 1910.1200 Appendix A)

III. HAZARDS IDENTIFICATION

Emergency Overview
Can cause sensitization by skin contact. Limited evidence of a carcinogenic effect.

Potential Health Effects:
- Eyes: Can cause irritation consisting of redness, swelling and pain.
- Skin: Can cause irritation or other allergic reactions, including redness and/or swelling.
- Inhalation: Can cause respiratory irritation.
- Ingestion: Not an expected route of entry.
- Chronic: Can cause an allergic skin reaction with repeated or prolonged exposure consisting of redness, swelling and/or rash (urticaria).
Material Safety Data Sheet
Material Name: DuraForm™ 316 L (Stainless Steel Powder)

Medical Conditions Aggravated by Exposure
Could irritate an existing dermatitis or respiratory condition.

IV. FIRST AID MEASURES
Skin contact: Immediately flush skin with plenty of soap and water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

Inhalation: Move affected person to fresh air. In case of asphyxia, initiate artificial respiration immediately. If breathing is difficult, give oxygen. Get medical attention immediately.

Ingestion: Ingestion is unlikely. However, if large quantities are swallowed, get medical attention.

V. FIRE FIGHTING MEASURES
Flash Point: NA
Method Used: NA
Upper Flammable Limit (UFL): NA
Lower Flammable Limit (LFL): NA
Auto Ignition: Not self-igniting
Rate of Burning: NA

NFPA Ratings
0 = Minimal
1 = Slight
2 = Moderate
3 = Serious
4 = Severe

Flash: NA
Method Used: NA
Upper Flammable Limit (UFL): NA
Lower Flammable Limit (LFL): NA
Auto Ignition: Not self-igniting
Rate of Burning: NA

General Fire Hazards: Thermal decomposition products can include CO, CO₂, organometallic compounds, and smoke.

Extinguishing Media: Use water mist, dry chemical, carbon dioxide, or chemical foam. Avoid the use of a stream of water to control fire since dusting can occur.

Fire Fighting Equipment/Instructions: Wear full protective clothing, including helmet, self-contained positive-pressure or pressure-demand breathing apparatus, protective clothing and facemask. Move container from area if it can be done without risk. Do not use high-volume water jet or high-pressure inert gas since pressure may cause dusting. Avoid inhalation of material or combustion by-products.

VI. ACCIDENTAL RELEASE MEASURES
Containment Procedures: Ensure adequate ventilation. Avoid formation of dust. Do not release material or contaminated water into drains, soil or surface waters.

Clean-Up Procedures: Wear appropriate protective equipment and clothing. Avoid the generation of dusts during clean up. Clean mechanically with non-sparking tools. Place material in an appropriate container for disposal.

Evacuation Procedures: Keep unnecessary personnel away.

Special Procedures: A slipping hazard exists when small particles are spilled.

VII. HANDLING AND STORAGE
Handling Procedures: Avoid spilling powders to prevent slip hazards. Avoid dust accumulation of this material.

Storage Procedures: Keep this material in a cool, dry place. Eliminate all sources of ignition.

VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls
Ventilation must effectively control dusts.

PERSONAL PROTECTIVE EQUIPMENT

Eyes/Face: Wear tightly sealed goggles.
Skin: Use impervious gloves, an apron, and closed shoes.
Respiratory: If ventilation cannot effectively keep dust concentrations below established limits, appropriate certified respiratory protection must be provided.
General: An eye wash fountain and safety shower are recommended.

IX. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Dark grey
Odor: Oderless
Physical State: Powder
PH: NA
Vapour Pressure: NA
Flash Point: NA
Melting Point: Undetermined
Viscosity: NA
Solubility (H₂O): Insoluble
Density: Undetermined
Percent Volatile: NA
Molecular Weight: NA

X. CHEMICAL STABILITY AND REACTIVITY

Chemical Stability: Stable under normal conditions of handling, use and transportation.
Incompatibility: None known.
Hazardous Decomposition: Thermal decomposition products can include CO, CO₂, organometallic compounds, and smoke.
Hazardous Polymerization: Will not occur.

XI. TOXICOLOGICAL INFORMATION

Acute and Chronic Toxicity
A: General Product Information:
Irritant to skin and mucous membranes.
Sensitization possible through skin contact.
B: Component Analysis:

Carcinogenicity
A: General Product Information: None.
B: Component Carcinogenicity:

XII. ECOLOGICAL INFORMATION

Ecotoxicity
A: General Product Information: The aquatic toxicity of the product is unknown; however, based on components, it is predicted that this material may be harmful to aquatic organisms or cause long-term adverse effects in the aquatic environment. Prevent contamination of soil drains and surface waters.

B: Component Analysis - Ecotoxicity - Aquatic Toxicity:
Environmental Fate: No information available for product.

XIII. DISPOSAL CONSIDERATIONS

Waste Disposal Instructions
Do not contaminate drains, soil or surface waters with the material or its container. Avoid disposal. Attempt to utilize product completely. Dispose of in compliance with all local, state, and federal regulations. Prior to disposal of unused material, 3D Systems Inc., recommends consulting and using an approved waste disposal operative to ensure regulatory compliance.

XV. REGULATORY INFORMATION

US FEDERAL
TSCA: All materials are listed on the TSCA Inventory or are not subject to TSCA requirements
SARA 302 EHS List (40 CFR 355 Appendix A): None listed
SARA 313 (40 CFR 372.65): 7440-47-3 Chromium (7 – 12%), 744-50-8 Copper (3 – 7%), 7440-02-0 Nickle (1 – 3%), 7439-96-5 Manganese (1 – 3%), 7429-90-5 Aluminum powder (pyrophoric) (0.5 – 1.5%)
CERCLA (40 CFR 302.4): Chromium, Copper, Nickle (Stat Code 2) no reporting required if the particles released are greater than 100 micrometers in diameter.
